

WIRELESS PROTECTION FOR PEOPLE & PROPERTY

7000 iris+

Wireless Handheld Panic Alarm

Iris+ was designed with versatility in mind and there are a number of handheld panic alarms available providing differing actions to meet specific site requirements.

- 7500/2 is fully approved for use with BS8243 Grade 2 security systems where Police response is required
- 7500/2/T and 7500/3/T are ideal where a “man down” alert is needed to protect lone workers

Following user activation, tactile verification is also available.

Visual indication is provided for both full activation and battery low monitoring.

Key Features

- Fully wireless
- Up to 5 Year battery life
- Tactile feedback confirmation
- Alarm latch memory
- Battery Low indication
- Fully supervised (Class VI)
- Optional local assistance call
- Optional man down facility

Wireless handheld panic button - features at a glance:
