WHAT OUR CUSTOMERS SAY

Customer Testimonials

“The FireCell system was easy to install and technical assistance from technical support staff was excellent.”

“The customer was happy with the end product and it was a joy to install.”

“We have used the EMS fire alarm system on numerous projects and have had good experiences of the system, which we believe gives a cost effective alternative to a hard wired system.”

“As an installer we get excellent technical support from EMS.”

“It's so flexible. That's the beauty of it. We were able to install devices, as and when access became available, without having to run any cables.”
