

A NEW ERA IN WIRELESS FIRE DETECTION

SMARTCELL WIRELESS DUAL INPUT / OUTPUT UNIT

Introducing the Next Gen I/O Unit

The new SmartCell Wireless Dual Input / Output Unit represents the first release in the next generation of SmartCell technology - a key milestone in the evolution of EMS wireless systems.

Developed from installer and engineer feedback, this latest I/O unit improves usability, enables faster installation, and significantly boosts battery performance, while delivering trusted SmartCell 'fit and forget' reliability.

Modern by design

The new Wireless Dual Input / Output Unit features a more refined, contemporary design, improving both usability and on-site appearance without compromising the durability expected from EMS.
